

CONFIGURE A RULE

Administrative title *

1

Event nodes

Machine name: event_nodes [Edit]

This title will be used administratively to identify this rule.

Parent menu item *

2

-- Events

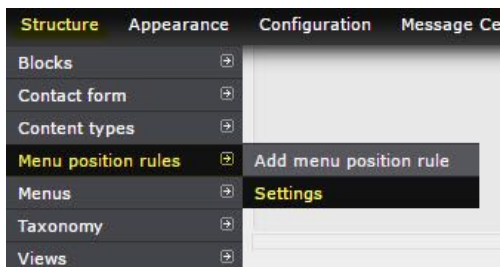

Select the place in the menu where the rule should position its menu links.

Conditions

All the conditions must be met before a rule is applied.

A screenshot of the 'Content types' configuration section. On the left, there are several expandable sections: 'Content types' (Event), 'Pages' (Any page), 'User page' (Ignore user account page), 'User roles' (Any user role), and 'Taxonomy' (Any vocabulary or taxonomy). On the right, there is a list of content types with checkboxes: 'ABA Product', 'Banner Image', 'Blog entry', 'Book page', 'Event' (checked), 'Event Ticket', 'FlexSlider Example', 'Gallery', 'Gift Card', and 'Membership'. A red arrow points to the 'Event' checkbox. At the bottom right, there is a 'Save' button and a red circle with the number '4'.

CONFIGURE MENU POSITION SETTINGS

When a menu position rule matches:

- Insert the current page's title into the menu tree.
- Mark the rule's parent menu item as being "active".
- Don't mark any menu item as being "active".

By default, a matching menu position rule will insert the current
