

You can change your site to a different Theme, that only you can see, when logged into your account. This allows you to prepare a different Theme, while still displaying your current Theme to customers.

## CHOOSE THEMES

### DISABLED THEMES 1

0 Point 7.x-1.13

0 Point theme is ideal for a wide range of sites.  
*Developed by Dr. Radut.*

[Enable](#) | [Enable and set default](#)

Aberdeen 7.x-2.0

Aberdeen is a fresh design that balances simplicity, soft, neutral background colors, plenty of whitespace and big nice typography

[Enable](#) | [Enable and set default](#)

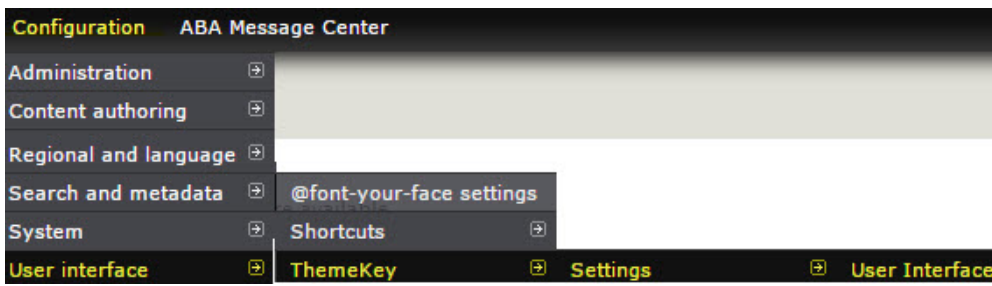

Academia 7.x-1.0-beta2

A clean and elegant theme focused on readability and textual content. Suitable for informational sites with lots of text. Multiple colour schemes.

## CONFIGURE THE THEME KEY TOOL

### SELECTABLE THEMES 1

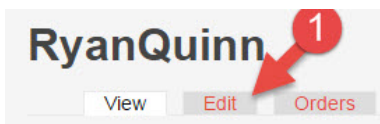

Select all the themes that should be provided in theme selectors.

SCREENSHOT	NAME	SELECTED
	Academia sites/all/themes/contrib/academia	<input checked="" type="checkbox"/>

[Save configuration](#) 3

## SET A THEME TO DISPLAY FOR YOUR ACCOUNT

▼ **THEME CONFIGURATION** ← 2

Selecting a different theme will change the look and feel of the site.

SCREENSHOT	NAME	SELECTED
	<b>corkedscrew</b> sites/all/themes/contrib/corkedscrew	<input checked="" type="radio"/> <span style="color: red;">3</span>

Save 4

You will now see the site in the selected Theme when you visit any customer-facing pages. This will allow you to configure Blocks, change colors (if the Theme allows it), etc.

The changes you make under the selected theme will remain and you can resume working on it at any time and you can switch between working on the theme and revert to viewing the default again.

### VIEW THE SITE IN THE DEFAULT AGAIN
